## FENTANYL AWARENESS

---

#justKNOW

---

*“Fentanyl is the single deadliest drug threat our nation has ever encountered,” said Administrator Anne Milgram. “Fentanyl is everywhere. From large metropolitan areas to rural America, no community is safe from this poison. We must take every opportunity to spread the word to prevent fentanyl-related overdose death and poisonings from claiming scores of American lives every day.”*

## Faces of Fentanyl

The Drug Enforcement Administration (DEA) has created a special exhibit, The Faces of Fentanyl, to commemorate the lives lost from fentanyl poisoning. If you would like to submit a photo of a loved one lost to fentanyl, please send\* their name, age, and photograph to [fentanylawareness@dea.gov](mailto:fentanylawareness@dea.gov) for DEA's consideration, or post a photo and their name to social media using the hashtag #JustKNOW.

**\*BY SUBMITTING PHOTOGRAPHS FOR DEA'S CONSIDERATION AND SHARING YOUR STORY, YOU AUTHORIZE DEA THE RIGHT TO USE THESE MATERIALS WITHOUT LIMITATION.**

The DEA Faces of Fentanyl Wall exhibit is located at DEA Headquarters, at 700 Army Navy Drive, Arlington, VA 22202. Visitors can view the wall Tuesday through Saturday, 10 a.m. to 4 p.m.

**Please note:** DEA Headquarters is a federal building, and visitors must comply with security rules and procedures. Guests over the age of 18 must present a valid government issued photo ID. All bags, purses, etc., will be screened, and guests will be required to step through a metal detector.

## National Fentanyl Awareness Day (May 9, 2023)

National Fentanyl Awareness Day aims to amplify nationwide efforts to increase awareness and decrease demand for fentanyl, which is a highly addictive synthetic opioid that continues to drive the overdose epidemic.

**Fentanyl is involved in more deaths of Americans under 50 than any cause of death, including heart disease, cancer, homicide, suicide and other accidents. Learn more at [fentanylawarenessday.org](https://www.fentanylawarenessday.org) <<https://www.fentanylawarenessday.org>> and spread the word to save a life. Illicit fentanyl is driving the recent increase in US drug overdose deaths.**

**This National Fentanyl Awareness Day, we're proud to spread the word to save lives.**

**According to the CDC, 107,375 people in the United States died of drug overdoses and drug poisonings in the 12-month period ending in January 2022. A staggering 67 percent of those deaths involved synthetic opioids like fentanyl. Some of these deaths were attributed to fentanyl mixed with other illicit drugs like cocaine, methamphetamine, and heroin, with many users unaware they were actually taking fentanyl. Only two milligrams of**

**fentanyl is considered a potentially lethal dose; it's particularly dangerous for someone who does not have a tolerance to opioids.**

## **National Fentanyl Prevention and Awareness Day 2023**

August 21st is a coordinated day of response by grassroots fentanyl awareness organizations and families impacted by fentanyl to educate the public about the dangers of illicit fentanyl. DEA is proud to work with families who have been affected by fentanyl poisonings to spread the word and save lives.
